PEER EVALUATION

- Use this form to grade your classmates for this project. There are a number of important principles to keep in mind:
 - Be honest, fair, academic
 - The grade you give is the grade they get; I average, but don't change
 - Remember, they are also grading you
 - The numbers written are the possible grades, don't write something that isn't there

- Circle your name

- **Circle** the number grade for **each student as they teach** their lesson. Use the following guidelines; the more “yesses” the higher the grade....
 - ...were they prepared?
 - ...could you hear them?
 - ...did they answer questions?
 - ...were they clear in their explanation?
 - ...did they present themselves in a serious, professional manner?
 - ...did they budget their time?
 - ...did they appear to do their fair share?

- **Write** a number grade for **each person in your group** in the space to the left of their name. Use the following guidelines; the more “yesses” the higher the grade...
 - ...did they do their fair share?
 - ...did they consistently contribute to the group?
 - ...were they, for the most part, talking about the assignment during class?
 - ...did they offer ideas and/or suggestions?
 - ...were they the ones that did the “paper work” (typing, answering questions, writing notes, etc.)?
 - ...were they “constructive” or “destructive” to the overall effort?

- **It is not possible for everyone in the group to get a 10!!**
