20 pts (general appearance)

3 pts

3 pts

3 pts

7 pts

88 pts so far, but...
100 pts total possible for the project.

If all you do is the above, the highest grade you can earn is a B+ (88/100).

If you want to earn an “A”, you must make an oral presentation to the class. In essence, like many sports, you raise the degree of difficulty. *Making a presentation does not guarantee a higher grade, but just that you make it possible to earn the higher grade.* Also, a good presentation may balance a weaker section of the project.

Nothing should be printed; share—with edit privileges—the project for grading using Google docs/email.
